

WILLEM JOHANNES GROBLER

IT INFRASTRUCTURE MANAGER | MICROSOFT CLOUD | ENTERPRISE OPERATIONS

Johannesburg, Gauteng, South Africa | Mobile: 072 212 9136 / 082 801 4870 | LinkedIn: www.linkedin.com/in/willem-grobler-b17746347

PROFESSIONAL SUMMARY

IT infrastructure manager with more than 20 years of progressive technical and leadership experience across aerospace, manufacturing, government and managed services. Combines hands-on Microsoft infrastructure expertise with responsibility for IT budgets, staff supervision, procurement, licensing, lifecycle planning, cloud services, servers, virtualization, backup, security and business-critical applications.

CORE COMPETENCIES

IT Infrastructure Management | Microsoft 365 | Azure | Windows Server | Active Directory | Hyper-V | VMware | IT Budgets | Procurement | Licensing | Backup & Disaster Recovery | Cybersecurity | Vendor Management | Team Leadership

PROFESSIONAL ACHIEVEMENTS

- Lead current IT operations supporting approximately 110 users, 120 Microsoft 365 accounts, 12 Windows Servers and 10 Hyper-V virtual machines.
- Manage IT budgets, procurement, licensing and infrastructure lifecycle requirements while supervising IT staff.
- Maintain high availability of infrastructure supporting aerospace, engineering and manufacturing operations.
- Previously provided technical leadership to a team of approximately 10 people in an MSP environment.

PROFESSIONAL EXPERIENCE

IT Manager / Senior IT Administrator | Paramount Aerospace Industries | Jun 2023 - Present

- Lead enterprise IT operations supporting approximately 110 users across business, engineering and manufacturing functions.
- Administer 12 Windows Servers and 10 Hyper-V virtual machines.
- Administer Microsoft 365 for approximately 120 users, including Exchange Online, Teams, SharePoint Online, OneDrive, Entra ID, Intune and Defender.
- Manage identities, permissions and access controls and administer MFA and Conditional Access.
- Support Azure services, Active Directory, Windows Server, networking, endpoints, Veeam, Backup Exec and enterprise applications.
- Manage IT budgets, procurement, licensing and infrastructure lifecycle requirements and supervise IT staff.
- Support business-critical applications including SYSPRO, Teamcenter, CATIA and Jarrison.

IT Engineer | CHM Vuwani First Technology | Sep 2019 - May 2023

- Delivered infrastructure and Microsoft cloud services in an MSP environment supporting client estates ranging from approximately 20 to 600 users.
- Served as a full Microsoft Office 365 administrator, managing cloud services, users, identities, permissions and licensing.
- Administered approximately 21 Windows Servers and both VMware and Hyper-V environments.
- Administered Microsoft Azure and performed Microsoft 365 migrations.
- Led or played a key technical role in migrating the Limpopo Department of Health and Social Development to Microsoft 365 and Azure.
- Supervised technical staff and resolved complex server, cloud, identity, networking and Microsoft 365 incidents.

IT Technical Lead | IT Masters | Jun 2015 - Aug 2019

- Delivered infrastructure administration in an MSP environment across multiple customer environments.
- Administered physical and virtual Windows Server infrastructure using Hyper-V and VMware.
- Administered Office 365, backup and recovery solutions, firewalls and network infrastructure.
- Supervised and provided technical leadership to approximately 10 people.

- Performed server installations, upgrades, maintenance and advanced infrastructure troubleshooting.

Helpdesk Manager & Technical Lead | Enabling Solutions | May 2014 - Jun 2015

- Managed IT support operations for approximately 450 Limpopo Department of Health users across 39 sites.
- Supported distributed infrastructure with typically 2-8 servers per site.
- Led incident prioritization, escalation management, SLA compliance and resolution.
- Provided Windows Server and infrastructure technical leadership across geographically distributed facilities.
